

Everlast Metals

DL-100

The Everlast Metals DL-100 is a double-lock architectural standing seam roofing panel that utilizes the proven seaming process of mechanical locking in conjunction with the floating action of a concealed clip assembly. This design allows for expansion & contraction caused by natural elements, providing a virtually leak proof roof with exceptional wind uplift ratings.

Profile Options:

Available Product Options:

1. Available for radius applications
2. Tapered panels
3. Available in steel and aluminum

Features:

- 35-Year finish warranty
- Minimum length of 36"
- Panel widths 13", 17", 21", custom
- Minimum slope requirement 3:12
- Watertight side lap
- Recommended for application over solid framing
